TEN CENTS PER WEEK

JACKSONVILLE, ILLINOIS, THURSDAY MORNING, SEPTEMBER 24, 1903.

PRICE THREE CENTS

## COPPER MEN IN TROUBLE

SHAREHOLDERS FEARFUL OF HEAVY LOSS.

Many Plants Shut Down and Receivership Proceedings Are Threatened—Debts to Contractors and Laborers.

New York, Sept. 23.—It was stated informally today the Speyer syndicate probably would sell the assets of the Consolidated Lake Superior company at auction on Oct. 1. Details as to terms and conditions will be announced later.

Philadelphia, Sept. 23.—Stockholders of the protective committee have approved a proposed plan of reorganization of the Consolidated Lake Superior company, which they say is satisfactory to the interests they represent. It is learned the plan provides for a new company, capitalized at from \$5,000,000 to \$10,000,000, and it is proposed to raise the amount by a bond issue of \$5,000,000 and assessment of three dollars per share.

The Consolidated Lake Superior company controls a large number of concerns at and near Sault Ste. Marie. It was organized under the laws of Connecticut, capital \$117,000,000, of which \$102,000,000 has been issued. The principal stockholders are Philadelphia. It is estimated about \$70,000,000 of stock is held here, the company operates the Helen ore mines in the Michigan range of iron and steel mills and various other plants, as well as street railway lines and mines on both sides of the Soo and ferry across the St. Mary's river. The trouble of the company became a public matter last December, when it was learned that the concern was trying to secure a loan to carry on its operations. The loan was finally negotiated with Speyer & Co., of New York. This loan expired July 1, but was extended to give officers an opportunity to raise the money from the stockholders. This was not successful and it was then decided to reorganize the company. Certain stockholders demanded certain information concerning the management of the company under a threat of legal proceedings. This was followed by a movement for a receiver and recently an order was issued shutting down all the company's plants. It is said \$300,000 is owed to laborers of the company and \$1,500,000 due contractors and others for construction work.

Toronto, Ont., Sept. 23.—F. R. Clergue made a statement to day regarding the trouble of the Consolidated Lake Superior company. He says Shields accepted the presidency of the company with the positive assurance that funds would be provided for taking up the Speyer loan and the unexpected continuance of money pressure in New York made it impossible for the fulfillment of those promises. Clergue says the works represent the expenditure of \$25,000,000, and that in the last three months the net earnings were over \$500,000. The company, he says will ask the Speyer syndicate for further indulgence and believes the request will be granted. He expresses the opinion a brief respite is all that is necessary for complete rehabilitation. He is confident the present shareholders will be saved the amount of their entire investment. Friendly consideration and indulgence of Canadian creditors for a few days, he says, will be of the greatest possible assistance in securing the financial relief in sight. He says also that the works at Sault Ste. Marie will be re-opened as soon as the new program is adopted.

Sault Ste. Marie, Sept. 23.—The story is circulated here to the effect that the Consolidated Lake Superior company is not in as serious financial condition as has been given out of late. People doubt seriously if there is any necessity for closing down the plants and argue this is done simply for the purpose of whipping into line the so-called "dissenters" among the stockholders.

## UNIFORMS BARRED

Neenah, Wis., Sept. 23.—A sensation was caused in the local Grand Army circles by the ruling of Rev. Albert Froehke, which barred Grand Army men in uniform from attending the funeral services of Ferdinand Sauer in the German Lutheran church. Rev. Mr. Froehke states his action was merely enforcing the rules of the church. Sauer was a prominent Grand Army man and before his death selected members from the local post for pall bearers. As a result of the ruling none of the old soldiers attended the funeral. Those present at the funeral state that when brought into the church the casket was draped with an American flag and the pastor ordered this removed.

## MICHIGAN DELEGATION

Grand Rapids, Mich., Sept. 23.—The Michigan congressional delegation to day decided to continue Congressman William Alden Smith as chairman of the delegation. Also decided upon committee membership, these to be submitted to Speaker Cannon.

## THE MARBLE WORKERS

Will be Supported by Building Material Trades Council in Their Trouble.

Chicago, Sept. 23.—Sixty unions having a membership of nearly 50,000, affiliated with the Building Material Trades Council, will, according to Secretary Deutsch, of the council, support the Marble Workers' union against the effort of the National Marble Dealers to maintain "open shops." The action pledging support was taken at a special meeting of the council today. The manufacturers plan to open their plants to employ with non-union men. This, say union officials, will involve a strike of union firemen and machinists at each association shops where non-union men appear for work.

## NO ACTION TAKEN

Washington, Sept. 23.—Executive council of the American Federation of Labor today considered the case of W. A. Miller, foreman of the book bindery, who was dismissed from government printing office and subsequently reinstated by order of President Roosevelt, but took no action in the matter, deferring that until later. The only information concerning the matter is embraced in the following statement: "James W. Dougherty, secretary of the International Book Binders' association, accompanied that organization and appeared before the executive council in the William A. Miller case. The matter was thoroughly gone into documents read and a copy of the evidence submitted. Further consideration of the subject deferred until later in the present session."

## FOR NEW CABINET

Buda Pesth, Sept. 23.—The text of the royal autograph letter entrusting Count Hedervary with the formation of a new cabinet, was published to day. In it Emperor Francis Joseph says he is deeply grieved at the deplorable circumstances which hinder the workings of the state machinery. He cannot, however, assent to any measure regarding the common army which would possibly weaken both halves of the monarchy and which are not in accord with interests of Hungary, of which they would jeopardize. The emperor is desirous of giving effect to concessions announced in the lower house of the Hungarian diet by former Premier de Czeil and by Premier Hedervary, which he deems to be admissible reforms.

## CLAIMS PRESENTED

Caracas, Venezuela, Sept. 23.—The official figures of claims presented by foreign nations to the mixed tribunal now sitting in Caracas are: France, \$16,040,000; United States, \$10,900,000; Italy, \$8,300,000; Belgium, \$3,693,380; Great Britain, \$2,500,000; Germany, \$1,417,390; Holland, \$1,046,450; Spain, \$900,000; Mexico, \$500,000; Norway and Sweden, \$300,000.

## CARRIAGE BUILDERS

Boston, Sept. 23.—Frank L. Wright, of St. Louis, was to day elected president of the Carriage Builders' National association, which is holding its convention here. Resolutions offered by R. C. Staver, of Chicago, were adopted favoring reciprocity in general and Canada in particular. T. M. Knappen, secretary of the National Reciprocity league, delivered an address on "Reciprocity With Canada and How to Get It."

## TRAIN HELD UP

Portland, Ore., Sept. 23.—The Atlantic Express on the Oregon Railroad & Navigation company's line was held up at Corbett, twenty miles east of this city to night. It is reported Engineer Barrett was fatally shot. The details are meagre. It is not known whether the robbers secured anything.

## REFUNDING OPERATIONS

Washington, Sept. 23.—Secretary Shaw authorizes the statement that owing to the security of 2 per cent bonds, both for circulation and as security for government deposits, he will renew refunding operations to the extent of \$30,000,000 in accordance with a previous circulation.

## BOUND FOR AMERICAN

London, Sept. 23.—To the strains of the "Star Spangled Banner," "Marching Through Georgia" and other American airs, some 200 members of the honorable artillery company left their London armory to day and took a train for Liverpool to embark on the steamer Mayflower, bound for Boston, Mass.

## ILLINOIS CONFERENCE

Bloomington, Sept. 23.—The central Illinois conference of the Methodist Episcopal church opened to day at Muncie. The day was devoted to routine business.

## DISAPPEARED

Dubuque, Iowa, Sept. 23.—Elmer Brinthal, cashier of the Farmers and Merchants bank at Aurora, Iowa, has disappeared. His account is all right. No cause for his disappearance known.

## THE GOVERNOR ON "MOBS."

ADDRESSES SOLDIERS' AND SAILORS' REUNION.

Declared Mob Rule Simply Tore Down the Good Influences the Human Race Had Accomplished in the Past.

Carbondale, Ill., Sept. 23.—Five thousand veterans and their friends to day heard Governor Yates speak on "Mobs" at the opening of the reunion of the Southern Illinois Soldiers' and Sailors' association. Yates declared mob rule simply tore down the good influences the human race had accomplished during the past. Lynching was the essence of cowardice; it permitted no appeal; gave no quarter, but expected quarter be given to lynchers. Referring to the Danville riots of July 25, the governor was in praise of Sheriff Whitlock. He held that Whitlock protected prisoners in Vermilion county jail by using a combination of commonsense and bird shot.

The evidence at the trial of Danville rioters showed the five men, bent on unlawfully executing a negro for the alleged purpose of protecting the sacredness of their homes, were wife beaters. "As I love memory past and revere the flag you veterans preserved," said the governor, "I will keep my oath and put every bayonet and every rifle belonging to the state against the further use of lynch law and mob violence."

He referred to the primary election law of Wisconsin and Minnesota and approved the law in part for Illinois.

## TALKS OF CORN CROP

Washington, Sept. 23.—Secretary Wilson returned to night from the west. His journey both ways took him through the heart of the corn belt and to night said: "The corn crop, owing to the peculiarity of the season, is late and light. Heavy floods destroyed it on bottom lands to a great extent. Continued rains throughout June and July saturated the level lands and retarded the growth of corn. Frost has injured it in streaks. Through central Iowa perhaps one-quarter of the crop has been touched by freeze, but what has not been affected by frost is ripening rapidly with this fine weather. Iowa will not have as many bushels as last year, but will produce more No. 2 corn than last year. There will be plenty of corn in the country, because feeding was very extensive last year, as the corn was of such character that it had to be fed. Feeding last year was unprofitable. Very many feeders lost money, therefore they will feed less this year. A very heavy hay crop was secured this season and pastures have been and still are in excellent condition. As to wheat, threshing has been delayed by the rainy weather. If the present good weather continues it will progress rapidly. Taking farm products as a whole, there is an abundance in the land."

## LOSSES BY FIRE

Mellen, Wis., Sept. 23.—Incendiaries started a fire which nearly wiped out the village of Morse, thirty-seven miles south of Ashland to day, and caused a loss of \$500,000. Partially covered by insurance.

T. R. Chase's sawmill and store was destroyed, together with 6,000,000 feet of lumber. The fire also burned several small buildings. The blaze started in the lumber yard and from all that authorities can learn was the work of a former employe of the mill who was recently discharged. The man has disappeared. One man was asleep in the store and the watchman had much trouble in waking him. He was burned and severely cut by broken glass.

Des Moines, Sept. 23.—The entire block in part of Alresche, including property valued at \$50,000 or more, was destroyed by fire to day. Nine business houses and contents were burned.

## AUTO ON RURAL ROUTE

Macon, Mo., Sept. 23.—Charles Whiteis, mail carrier on rural route No. 2 out of Macon, used an automobile yesterday on his trip which covers a distance of twenty-five miles. The trip was made in two hours and fifty-five minutes. Stops were made at sixty mail boxes and there was a delay of twenty minutes at La Porte, besides a number of stops on account of fractious horses. Ten miles of the distance traveled is among the worst stretches of road in the country. Usually it takes about six hours to make the trip. A report of the trip will be sent to Postmaster E. J. Wilson to the postoffice department.

## SENT TO PRISON

Berlin, Sept. 23.—Sergeant Buntz, of 2nd grenadier regiment, stationed at Ulm, Wurtemberg, was to day sentenced to sixteen months imprisonment for allowing a private named Hils, Buntz threw a cooking apparatus at his victim, causing his death.

## OFFER REWARD

Burlington Officials Offer \$1000 for the Arrest and Conviction of the Robbers.

St. Joseph, Mo., Sept. 23.—Officials of the Burlington railway and Adams Express company have announced a reward of \$1,000 for the arrest and conviction of the gang that held up and robbed the train north of St. Joseph last night. There is no trace whatever of the robbers, other than the finding of a Winchester rifle in the bushes near the scene of the robbery, has been discovered to day.

## POLITICAL CRISIS

London, Sept. 23.—The political crisis has taken on a phase which lends to the present situation an historical and constitutional importance of almost unprecedented interest. The king has interfered not unconstitutionally or beyond power vested in crown, but in the exercise of his prerogatives to the extent never dreamed of in the Victorian era.

Balfour's continued presence at Balmoral has given rise to much surmise and comment, but the Associated Press is able to state definitely it is due to the king's determination not to assent to the formation of a new cabinet until thoroughly satisfied that its personnel and combination is such as to ensure efficient carrying of affairs of the empire pending the resumption of parliament. For years previous, cabinet were formed or ministerial vacancies filled with the mere formal presentation to the sovereign of the new ministry. Thus he has done away with this tradition and spent the last few days in conference with Balfour and others on suggested appointments. To such an extent is the king holding his power of veto in reserve that now he is almost regarded by the inner circles as a more cabinet maker than Balfour.

## INVESTIGATED RIOT

Gomel, Russia, Sept. 23.—The Associated Press correspondent has personally investigated the anti-Semitic riot of Sept. 11 and several days following. The police and military openly sided with the plunderers and murderers. An organized attack was made on the Jewish houses, which were sacked. The bulky articles were destroyed. The Jews were brutally clubbed by soldiers when they attempted to cross the lines to rescue co-religionists from looters. The plunderers went from street to street carrying on their work of destruction in the presence of both troops and police. Altogether 400 houses were wrecked. Driven to desperation the Jews late in the afternoon rallied in force. The military fired on them, killing three and wounding many.

## GUN CLUB TOURNY

Indianapolis, Sept. 23.—More high scores were made to day in the Indianapolis Gun club's tourney. George Roll, of Blue Island, Ill., won the English Hotf trophy over A. C. Connor, of Pekin, Ill., 147 to 146 out of 150. Powers, of Decatur, Ill., tied his remarkable shooting again to day. He made perfect scores in two events of fifteen targets each and also in two events of twenty targets each.

## PLATT IS FOR LOW

New York, Sept. 23.—Senator Thomas C. Platt summed up his view of the political situation yesterday by saying: "If the Citizens' Union and the other anti-Tammany organizations work as hard as the Republicans will, I believe Mayor Low will be elected. Personally, I shall do all I can to elect him. The Republican organization takes this position: The Citizens' Union is leading in the fight and we are going to follow. We shall present no candidate for any office on the ticket."

"What do you think of George B. McClellan as Tammany's probable candidate for mayor?" was asked.

"Mr. McClellan is a fine young man. His record is good and he undoubtedly would be a strong candidate. Whether he could be elected or not will depend, as I have already said, upon the loyalty of the anti-Tammany elements in their support of Mayor Low."

## CONTROVERSY SETTLED

St. Paul, Sept. 23.—The controversy between the engineers and firemen and the Great Northern road was amicably settled this evening. Each side made concessions. The firemen was granted a slight increase in wages, but no increase is believed to have been granted the engineers, but numerous minor changes made in the working rules.

## GROSS EARNINGS

New York, Sept. 23.—The annual report of the New York, New Haven & Hartford railway will show the largest gross earnings in the company's history. The total gross receipts are given as \$47,240,000, an increase of \$1,755,000. Net earnings were \$13,945,000, an increase of \$1,044,000, and the surplus after charges have been deducted for the year amounts to \$5,527,000, an increase of \$1,145,000.

## AWAITED WITH ANXIETY

ARE THE EVENTS OF THE NEXT TWO DAYS.

War Believed to be Laminent Unless Turkey Stops Massacring Christians—Fighting Reported on the Frontier.

Sofia, Sept. 23.—A less hopeful feeling prevails to day in government circles regarding the general situation, although no actual change is reported. The events of the next two days are awaited with great anxiety. In revolutionary circles war is believed to be imminent unless Turkey steps massacring Christians, of which there are no signs at present. The belief among Macedonian leaders is that Turkey entered into negotiations with Bulgaria only to gain time to finish the extermination of what it regards as dangerous elements in Macedonia, which leaves troops now at Monastir free to move against Bulgaria and bring more soldiers from Asia. While the sultan's government is discussing the proposition for reform in Macedonia troops continue to massacre Christians and devastate the country.

Special significance attaches to the Macedonian meeting at Rustchuk because the resolutions adopted are the first open expression of such an emphatic character in favor of war coming from any popular meeting in Bulgaria. Resolutions were passed thanking the pope, English bishops, the trades union congress and the British and American press for expressions of sympathy with the Macedonian cause.

Fighting is reported to have taken place near Kotechal on the frontier, in which the Turks lost fifty killed and the insurgents ten.

## GRAND CIRCUIT RACES

Columbus, Ohio, Sept. 23.—The special attraction at the Grand circuit races to day was Dan Patch's race against time to beat his record of 1:59. Conditions were almost perfect, but the best the pacer could do was 1:59. The crowd twice objected to the judge's decision in the 2:05 pace and throughout the event there was much excitement. In the third New Richmond and Nervola paced a dead heat, though the spectators believed the latter won. The record field of the season was furnished when twenty-one horses started in the 2:17 pace.

2:11 trot, \$2,000 (four starters):  
McKinley ..... 2 1 1 1

## PRINCETON'S BIRTHDAY

Princeton, N. J., Sept. 23.—Princeton's 157th year began to day with appropriate exercises in Marquand chapel. The faculty attended in academy costume, led by Secretary Charles McAlpine, dean, H. B. Fine and former President Cleveland. The freshman class numbers 490.

## FINED AND PAID UP

Lansing, Mich., Sept. 23.—Col. Eli R. Sutton, who this morning pleaded guilty to the charge of conspiracy to defraud in a military clothing deal, was this evening fined \$2,000, which he paid immediately.

It is understood that Sutton during the time he was cloistered with Judge Weist to day, Prosecutor McArthur also being present, related everything within his knowledge in regard to the alleged attempts at jury bribing in this county at the time of his first trial. His statements were taken down by a court stenographer and sworn to. Sutton's fine of \$2,000 is the amount paid by other men implicated in the military supplies deal. When Sutton left the city to night he declared he was now free to come and go as he pleased, indicating he is assured that he will not be prosecuted on the charge of perjury.

## WRESTLED TWO MEN

Whitcomb, Wash., Sept. 23.—Frank A. Gotch, of Humboldt, Iowa, last night filled his agreement to throw Frank Coleman, of Chicago, and Emil Kleban, of Danville, Ill.; one of them was and the other twice in ninety minutes, without taking any rest, catch at catch can style.

## MURDER AND SUICIDE

Dead Bodies of Woman and Man Found in Chicago.

Chicago, Sept. 23.—The bodies of a well dressed woman about 20 years old and a man apparently 30, were found in a vacant lot in the fashionable residence portion of the South Side early to day. A revolver clutched in the dead man's hand, a bullet from which had passed through the woman's lung and two bullet wounds in the man's neck lead police to believe it a case of murder and suicide. The names "Laurie" and "Sherman" on the woman's clothing and the initials "D. O. R." on the man's linen are the only identifying marks upon the bodies.

Police later identified the body of the woman as that of Mrs. Arthur M. Laurie, wife of a window decorator employed in the advertising department of Swift & Co.

Arthur M. Laurie, with whom the dead woman made her home, was arrested and will be detained as a witness. Laurie said she was not his wife and he did not know the man whose body was found with the woman's. Her real name was Harriet Elizabeth Weber and the dead man's, it has been learned, was Infelenti almini. Each had been shot twice, and while indications point to murder and suicide, there are features to the case that make it mysterious. To night in going through the effects of Miss Weber an envelope was found addressed, evidently in the handwriting of the murdered woman, to Infelenti almini.

In seeking Talamini to find what he might know of the woman or shooting, officers identified the dead man as Talamini himself. No cause is known why Talamini should have shot the woman, but she had told several friends the day before of a few who had been following her and of whom she was afraid. Talamini has Hebrew countenance and it is the general theory he shot her because she refused to marry him.

The woman was shot through the arm and breast, the man through the neck and upward through the chin. In his hand was a revolver, four empty chambers accounting for four shots.

The neighbors declare more than four shots were fired, one going through the window of a nearby house. These facts led the police to believe there was a third party to the shooting. The woman came from Detroit several years ago.

Northfield, Vt., Sept. 23.—Neighbors who went to the house of Mrs. Stephen Trombler at South Northfield early to day, found the woman and her young child lying apparently dead on a bloodstained floor. Beside them was a club with which they had been beaten. The woman revived sufficiently to relate that a strange man whom she had discovered in the house had inflicted the injuries in attempt to outrage her; then she lapsed into unconsciousness and is expected to die. The child will probably recover.

Mt. Vernon, Ind., Sept. 23.—William Wilkerson this afternoon shot and killed Marshal Schwake, who attempted to arrest him for abusing his own family. A posse pursued Wilkerson for miles and just as they came upon him he committed suicide.

## IOWA SENSATION

Indianola, Iowa, Sept. 23.—A sensation was sprung to day at the trial of ex-Deputy United States Marshall Richards. Richards is accused of the robbery of Mr. and Mrs. P. Sullivan at Hamilton on New Year's eve, for complicity in which Frank Baird is now serving a 17-year sentence. Two thousand dollars was secured. Baird, who was brought from the penitentiary, testified to day Richards planned the robbery in the presence of witnesses, summoned him by telegraph on the date of the robbery, and assisted him and Charles Redrup, a cook, to commit the robbery.

## MINERS IN TROUBLE

Cripple Creek, Colo., Sept. 23.—When four miners were brought into court to day for trial from a military camp they were under the guard of a detail of soldiers. Attorney for the miners immediately withdrew, claiming it was not a constitutional court, but an armed military tribunal. Attorney for the military in his argument insisted that habeas corpus had not been suspended, but it was contended the writ should not be issued upon the request of every irresponsible person who wished to make a demand. The court took the matter under advisement.

## CABINET WILL RESIGN

Belgrade, Sept. 23.—At King Peter's request the cabinet will resign to morrow, but ministers will remain in office until the meeting of the skupshtina.

## AFTER WILLARD

Springfield, Sept. 23.—Governor Yates issued a regulation on the governor of Missouri for the return to Tremont, Fulton county, Ill., of A. H. Willard. The governor's arrest in Springfield, Mo., was made by Fulton county sheriff at large. It is alleged Willard undertakes to establish a large stock farm and that he failed to account for \$5,000, which a number of persons contributed to the enterprise.

## NEW RECORD MADE.

PRINCE ALBERT PACES A FAST MILE.

Goes Against the World's Record Held By Dan Patch and Covers the Distance in the Remarkable Time of 1:57.

New York, Sept. 23.—Prince Albert, the pacing hero of a hundred races and champion of a score of half mile tracks, went against the world's pacing record of 1:59 held by Dan Patch, and beat it decisively at the Empire City track to day. All conditions were favorable. At the third trial the starter gave the word and Prince Albert shot away to the quarter pole in 0:29 1/2. As he got into the back stretch he increased his speed and was at the half in 0:58. Then the crowd realized they were witnessing the fastest mile of the century and cheers came from the crowd. Without a break or a tremor he flashed by the three-quarter pole in 1:26 1/2, and without any urging came on with a most superb burst of speed, crossing the wire in 1:57.

## REFUSE TO ARBITRATE

Santo Domingo City, Sept. 23.—The Dominican government has informed United States Minister Powell it absolutely does not recognize the validity of agreement regarding claims of the improvement company and therefore cannot appoint an arbitrator in that case. Powell has informed the government the engagements must be kept and that he expected it to name its arbitrators. He also pointed out to the Dominican government that if they accepted arrangements with other powers those made with his government must also be respected and if some acts of ex-President Vasquez government were considered legal then all must be.

## GROSSCUT TO RESIGN

Chicago, Sept. 23.—It was rumored to night that Judge Grosscup, of the United States circuit court, is about to resign to accept a position as general counsel for the Northern Securities company. Grosscup was not in the city to night and the report could not be confirmed.

**ILLINOIS COLLEGE**

Propitious Opening of the Old Charter Educational Institution in the State.

Another year's work has been begun in Illinois college and the outlook is exceptionally bright. Great is the contrast between Wednesday morning, Sept. 23, 1903, and the morning seventy-four years ago, when the sainted Professor Sturtevant gathered about him the little class of nine, of whom the venerable Rev. Charles Barton is the only living member. The improvements, the faculty and their work and other particular have all been described in the Journal and will not be repeated at this time.

Early in the morning the students began to assemble on the campus and when the chapel in the Jones' Memorial building was opened an interesting audience soon assembled. All the seats, except a few of the front rows, were filled and these had some occupants on them, and the scene was indeed inspiring. The presence of the young ladies was truly an innovation and the few preset who had intimately known President Sturtevant's pronounced and positive opinions against co-education, almost looked to see his spirit hover over the scene in mild rebuke, but nothing of the sort took place. It was something of a wrench to those who all their lives had been accustomed to something different, but these grey heads must remember that the world moves and they will have to join the procession or be trampled under foot. The lusty college yells and vigorous conduct of the boys must have sounded rather peculiar to the young ladies present, but they will get used to boisterous behavior after a while and from appearances the boys on the hill are gentlemen. Some visitors from the city and elsewhere were present, among them Mrs. E. C. Lambert, Ensign Moore, Rev. Messrs. R. O. Post, R. F. Thrapp and C. M. Brown, several other ladies and gentlemen and all were deeply interested in the beginning of the year's work. There seemed to be a fine spirit on all hands and a generous enthusiasm which is so greatly the life of any institution and which all hope will increase as the year progresses.

After the students had been seated the faculty members filed in and took their seats in the body of the house. Next, Rev. F. S. Hayden, D. D., dean of the faculty, entered, clad in regulation black silk gown and stood at respectful "attention" while the door into the hall opened and President Barnes and Dr. Scherzer, suitably robed, passed in front of him with stately and solemn tread and took their seats on the platform amid the rousing cheers of the students who were led by the dean in that suitable effort.

The singing and responsive reading were conducted with a hearty will and added new inspiration to the occasion, while the prayer by the dean was an eloquent effort and was heard with profound respect and closest attention.

President Barnes made some extremely sensible remarks to the students and it is hoped they will be heeded. He said there had been a new departure admitting ladies to the college and when it was decided on last winter many dire predictions were made regarding the future of the college. He would not lay down any cast iron rules, but would place each and all on their honor. The presence of ladies made it all the more incumbent on the others to be true gentlemen, while the ladies would be all the more careful to conduct themselves as true ladies. He was glad to see so many of the former students returning, and while his joy on this account was great, it was still greater because of the presence of so many new faces. He especially emphasized the fact that the college owed its origin and beginning to the self denying generosity of Godly men and women whose great aim was to endow and perpetuate an institution which would have for its corner stone a genuine belief in the teachings of Christ. The college had always stood for this and he hoped it always would do so, for no matter how great might be the literary and scientific attainments, they were of little value without the inspiration which comes from a genuine belief and trust in the Man of Galilee. He urged industry and devotion to the work in hand and hoped all would enter heartily into the spirit of the year's efforts. He pleaded for cultivation of the physical powers and promised the campus would be in suitable shape as soon as possible, and requested the students not to loiter in front of the buildings, but seek recreation on the portion of the grounds intended for that purpose.

A few other directions were given and the students were dismissed to their respective places and reported to the proper persons at the right time for work.

The entire exercises were brief, and the intention to get down to work as soon as possible was announced.

The college is again launched on the work of another year. Of course the changes seem strange to the old friends, but all those who have the good of the institution at heart and let us sincerely hope their name is legion, will be ready to co-operate heartily with the administration in

making it a success and will sincerely rejoice in all the prosperity that comes to it, and be willing to give all new departures a fair trial.

**SPRINGFIELD Y. M. C. A.**

As was stated in the Springfield News of last evening the Y. M. C. A. directors and the trustees of the First Presbyterian church met in the parlors of the association building. A deal was made whereby the Y. M. C. A. is to pay the trustees \$8,500 for a lot just to the north of the church at Seventh street and Capitol avenue, and across the street from the new library building. The lot is 50 feet wide and 140 feet long. The Y. M. C. A. officials will begin active work and expect to have a new \$75,000 building on the site within the next two years. Committees have been appointed and the active work of canvassing will begin by the first of October.—Springfield News.

**FOOT BALL SCHEDULE**

**When and Where the Big Teams Will Play This Fall.**

All of the preliminary games in the big colleges have been played and now work has begun in earnest. All of the big colleges in the west will put good teams into the field this year, Michigan, who won the championship last year, probably stands the best chance of winning this year as seven of last year's eleven will be on the present team. Among the prominent western colleges that will battle for the football championship are: Michigan, Minnesota, Chicago, Wisconsin, Northwestern and Illinois universities. The only intercollegiate game will be between Chicago and West Point. Below is a schedule of the principal football games:

Saturday, Oct. 3.—Chicago-Indiana, at Chicago; Minnesota-Grinnell, at Minneapolis; Michigan-Case, at Ann Arbor; Wisconsin-Northwestern College of Naperville, at Madison; Northwestern-Monmouth, at Evanston.

Wednesday, Oct. 7.—Chicago-Cornell, at Chicago; Wisconsin-Oshkosh, at Madison.

Saturday, Oct. 10.—Chicago-Purdue at Chicago; Minnesota-Iowa A. C., at Minneapolis; Michigan-Beloit, at Ann Arbor; Wisconsin-Lawrence, at Madison.

Saturday, Oct. 17.—Chicago-Northwestern, at Chicago; Minnesota-Iowa, at Minneapolis; Michigan-Indiana, at Ann Arbor; Wisconsin-Beloit, at Madison; Illinois-Purdue, at Lafayette.

Saturday, Oct. 24.—Chicago-Illinois, at Chicago; Minnesota-Beloit, at Minneapolis; Michigan-Drake, at Ann Arbor; Wisconsin-Knox, at Madison.

Saturday, Oct. 31.—Chicago-Wisconsin, at Madison; Michigan-Minnesota, at Minneapolis.

Saturday, Nov. 7.—Chicago-Haskell Idians, at Chicago; Michigan-Ohio State, at Ann Arbor; Minnesota-Lawrence, at Minneapolis; Wisconsin-Oshkosh, at Madison; Northwestern-Purdue, at Lafayette.

Saturday, Nov. 14.—Chicago-West Point, at West Point; Michigan-Wisconsin, at Ann Arbor; Illinois-Minnesota, at Champaign.

Saturday, Nov. 21.—Michigan-Oberlin, at Ann Arbor; Northwestern-Wisconsin, at Evanston.

Thanksgiving, Nov. 26.—Chicago-Michigan, at Chicago; Wisconsin-Minnesota, at Milwaukee; Northwestern-Carlisle, at Evanston.

**A NATURAL RESULT.**

It is very reasonable to suppose if the foundation of a structure was removed that the building itself is bound to come down. This same principle can be applied to disease. Take remove the cause of sickness, and the illness leaves of itself. Dyspepsia, indigestion, headache and biliousness have their foundation in stomach disorders. Remove this weakness and the other symptoms are no more. There is one cure for this that all druggists sell for 25c per box, it is called Dr. Quinn's Improved Liver Pills. They get right at the beginning of these diseases and make the cure by taking away the cause of it. We will send a small box free by mail, with a large receipt of 25c. Address Dr. Quinn, Philadelphia, Pa.

**THE BISMARCK LETTERS**

Correspondence Between Iron Chancellor and William I.

**GLIMPSES INTO HIDDEN HISTORY.**

Close Relations Between the Prince and His Royal Master Brought Out. Neither Was Much Impressed by the Capture of Mexico by the French.

An additional chapter in the history of the world was recently published in New York and London by the Frederick A. Stokes company. It consists of the correspondence between William I. and Bismarck and other letters from and to Prince Bismarck, which have been translated from the German by J. A. Ford, says the New York Times.

These letters, it is stated, are published by the late Prince Bismarck's express desire, as he considered they would show better than can be done in any other way "the unique relationship which existed between him and his august master." The prince also desired that certain of his personal political letters, exchanged with his contemporaries, should be made public, as they were to serve to authenticate and supplement his biography. The prince himself selected these letters, which were found after his death carefully arranged in portfolios.

The capture of the City of Mexico by the French troops in 1837 did not apparently impress either William or Bismarck very forcibly, to judge from the marginal notes they made on receipt of the news. Bismarck on July 12, 1869, wrote as follows:

Your Majesty—I have the honor most respectfully to submit a communication I have just received from Rouher respecting the taking of Mexico and a report from Rothschild.

Remark in the king's handwriting: He is fortunate!

That William I. had a firm hold of the helm of state may be judged from a letter which he sent to Bismarck Jan. 27, 1863, reading:

I want to remind you, in connection with today's battle, that today is the birthday of my grandson, my second successor, at least, in the line of the country; that the upper house has also used its rights and has placed itself on the side of the government; defect in the constitution; that here also the king has only to consult his royal duty and works the machine without a budget until the account is subsequently laid before the second chamber and voted.

How well Bismarck carried out his master's will and introduced the "patriotic sentence" can be seen in the following extract from a speech which he made the same day, Jan. 27, 1863, in the landtag. He said:

It is a remarkable coincidence that the discussion of this manifesto which is to be presented to our royal master on the place of the birthday of the youngest presumptive heir to the throne. In this coincidence, gentlemen, we see a redoubled call to enter the lists boldly for the king's rights, boldly for the rights of his majesty's successors. The Prussian king's office has not yet fulfilled its mission. It is not yet ready to become a purely ornamental decoration of your constitution, but to be devoted to a dead piece of machinery into the mechanism of the parliamentary regimen.

On Jan. 13, 1870, William I. wrote the following to Bismarck:

Unfortunately I have always forgotten to give you the Victory medal, which should properly have been in your hands first, so I send it you now as the seal of your world-historical achievement.

Bismarck's reply shows that he was very grateful. He wrote:

Most illustrious King, Most Gracious Master—I thank your majesty most respectfully and most sincerely for graciously bestowing on me the Victory medal and for the honorable place your majesty has assigned to me in this world-historical monument. The recollections which this honored document will perpetuate among posterity acquire their special importance for me and mine through the gracious words with which your majesty has been pleased to accompany the presentation.

While my self confidence experiences great satisfaction in the fact that it is placed to posterity under the wings of the royal eagle, which points out to Germany the paths she must tread, my heart is still more gratified by the feeling that I have been able to assign to you the greatest of hereditary masters to whom I am attached with a full and personal love and to gain whose satisfaction is the reward I covet most in this life. With the expression of most respectful and unfeigned fidelity, your majesty's most obedient servant till death.

That William I. was also grateful to Bismarck for the latter's services is distinctly shown by his majesty's letter of Feb. 27, 1871, dated from Versailles. He wrote:

I have been unable to come to you yesterday and today, so I take up my pen to congratulate you on the preliminaries to the peace which I again owe to your circumstances, resolution and perseverance. Everybody except France is thanking you, but I most of all, and my thanks I herewith express to you in highest appreciation for this difficult work. If Bordeaux (the French national assembly was sitting at Bordeaux) listens to reason, we shall crown what has indeed been a bloody, but a glorious and honorable work, which Providence set us to achieve. I thank Providence for granting me such an adviser and such an army! Your most grateful king.

The work is in two volumes. The correspondence with William I. is contained in the first volume. Throughout the volume is shown Bismarck's devotion to the king of Prussia and the latter's great ability to guide the policy of his kingdom and influence the politics of other countries. The letters furnish most valuable glimpses into the hidden history of the days of Bismarck and William I. Volume II of the letters, containing Bismarck's correspondence with other political personages, is equally interesting and furnishes the true explanation of many hitherto misty incidents of the past.

**THE WABASH.**

St. Louis, Sept. 23.—President Ramsey, of the Wabash railroad, stated in an interview yesterday that the annual report of the Wabash company would probably be issued for publication this week.

Mr. Ramsey stated that the Pittsburgh situation, as far as the Wabash is concerned, is satisfactory, and the work on the connecting lines on the Baltimore route was progressing satisfactorily. Work on the Cherry Run division began yesterday.

In regard to the world's fair station to be erected by the Wabash, Mr. Ramsey said that he would give the plans his attention at the first opportunity in order that work may be begun on the station without further delay.

Land for the new freight depot, and switches of the Rock Island railroad has been purchased on Second and Collins streets, between Biddle street and Franklin avenue, at a cost of \$34,973.25. The deeds were recorded yesterday.

**NEW GAS MAINS.**

The business of the gas company has so grown that new six-inch mains will be necessary from Lafayette avenue to Anna street and thence to the works. The increase in consumption is largely due to gas stoves which are found so desirable at any time of the year, and especially in the summer time, and the obliging manner in which the company transacts its business makes it popular with the people.

**CORN FUTURES.**

By the way, did any of you get excited when frost was so confidently predicted not very long ago, and invest more or less extensively in corn futures? If so you have probably discovered that the price has dropped some five or six cents, and it is barely possible that some persons are kicking themselves vigorously, others are seeking some one to do the work for them and some others are almost ready to hunt the fool killer. Moral: Well, we won't rub it in.

\$5.35! \$5.35! \$5.35!

**SAMPLES OF CORN.**

Joseph Anderson, living near Alexander, left at the bank of Dunlap, Russell & Co. a number of samples of white corn, which are remarkable. On each stalk were two ears and they are large, well filled and in all respects superb specimens of the grain which is king.

**THE INDISPENSABLE FARMER.**

The American farmer is the wealthiest person in the world. In 1900, according to the census, the value of his products was \$4,739,118,000. This year their value will be in excess of \$5,000,000,000. The farmers of the United States employ over nine million persons and pay out in wages every year over \$300,000,000.

**BILL FOR DIVORCE.**

Malissa Lorine McNeal, of Jacksonville, through her solicitor, H. M. Ticknor, has filed a bill in the circuit court, asking for a divorce from William A. McNeal, to whom she was married April 14, 1892, in this city, alleging desertion.

**FOUND DEAD**

Benjamin Houston, Member of Prominent Latham Family, Expires While in Bed.

Mt. Pulaski, Sept. 23.—Benjamin Houston, aged 30 years, was found dead in his bed this morning at his home near Latham. He was a member of one of the most prominent Logan county families. Five years ago he shot and killed George Kitchen in a saloon, mistaking him for another man whom, it is said, he intended to shoot. He is a son of Charles Houston.

Monday night Houston was in Mt. Pulaski, and it is declared, became intoxicated. When he was discovered dead in bed this morning Dr. Bowzarth, of this city, was summoned. He could find no evidence of suicide. Coroner Boyden, of Lincoln, has been summoned and will hold an inquest.

**APPOINTED GAME WARDEN.**

G. W. Trunk, of Peoria, has been appointed game warden, vice Reardon, of Springfield, who recently resigned. State Game Commissioner Lovejoy arrived in Peoria Wednesday morning and immediately notified Mr. Trunk of his appointment, stating that the commission would arrive shortly and would take effect Oct. 1.

Mr. Trunk will have nine counties in central Illinois under his jurisdiction, and will have charge of the deputy game wardens in these counties. The new game warden was formerly employed at the pottery works in Springfield, is an enthusiastic sportsman and is eminently qualified to fulfill the duties incumbent upon the office. He stated Wednesday that he proposed to do all in his power to enforce the game laws of the state in his territory. He realized that it was a difficult undertaking, but was prepared to carry out his instruction to the letter. The office is considered an important one and those who know Mr. Trunk are confident that he will make an active, energetic official.

**FORBID LIQUOR AND CIGARETTES.**

The Rock Island and Alton have followed the example of the Wabash in making a rule prohibiting the use of intoxicating liquors or cigarettes by their employees. It is understood that all the road entering in this city propose to adopt the same rule. The rule has been enforced for several years as to trainmen, but has now been extended to apply to all employees.

**BURGLARS CAUGHT.**

Racine, Wis., Sept. 23.—In arresting Charles Bryan, of Toledo, Ohio, believed to be a professional burglar, Chief of Police Fred Patister came near being killed. Bryan drew a 35-calibre revolver from his pocket and was about to pull the trigger when the chief grasped the weapon and tore it from Bryan's hand. Last night two burglaries were committed and \$300 in money and jewelry stolen, and it is believed by the police that Bryan knows of the robberies.

**SCARLET FEVER CLOSES SCHOOLS.**

Taylorville, Sept. 23.—An epidemic of scarlet fever has broken out at Clarksville and it has been necessary to close the schools in that community. There is a large number of cases, eight of them being school children.

**READ THIS.**

Jacksonville, Ill., Sept. 23, 1902.—Nearly three years ago, with a second attack of serious illness, I was married to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's Specific for Kidney and Bladder Troubles, known as A TEXAS WONDER. Less than half of the bottle effected a complete and permanent cure. Consequently I believe it to be a medicine of very great value.

**CHOICE MISCELLANY**

**The Suez Canal.**

No more complete refutation of the arguments used to defeat a great investment in canal construction was ever furnished than by the Suez canal report on whose traffic for the last year has been recently made public.

The big Suez ditch was opened to navigation Nov. 17, 1869. Its total length is ninety-two miles, from the Said to Suez. Its actual cost was about \$88,000,000, besides a bond of about \$7,000,000 more. Its stock is divided into 400,000 shares, and of these 175,000 are held by the British government for which it paid the khedive of Egypt in 1875 \$20,000,000, using round figures. The shares bear interest at 5 per cent. Up to 1872 the canal's running expenses exceeded its receipts. In that year it earned rather more than \$100,000. Its total receipts were \$20,621,933, being \$12,481,600 in excess of its expenditures, and it distributed in net profits after covering its sinking fund over \$12,000,000.

Its traffic is steadily growing. Last year the net tonnage of vessels using it was 11,248,413, an increase of 9 per cent since 1900.

**Ranking Army Officers.**

The several ranking officers of the United States army down to the advent of the general staff on Aug. 15 have been: George Washington, general commander in chief, 1775-1783; Major General Henry Knox, 1783-1784; Captain John Doughty, 1784; Lieutenant Colonel Josiah Harmar, brevet brigadier general, 1784-1791; Major General Arthur St. Clair, 1791-1792; Major General Anthony Wayne, general in chief, 1792-1796; Brigadier General James Wilkinson, 1796-1798 and again 1800-1812; Lieutenant General George Washington, commander in chief, 1798-1799; Alexander Hamilton, 1799-1800; Major General Henry Dearborn, 1812-1815; Major General Jacob Brown, 1815-1828; Major General Alexander Macomb, 1828-1841; Major General Winfield Scott, brevet lieutenant general, 1841-1861; Major General George B. McClellan, 1861-1862; Major General Henry W. Halleck, 1862-1864; General U. S. Grant, 1864-1869; General W. T. Sherman, 1869-1883; General Philip Sheridan, 1883-1888; Lieutenant General John M. Schofield, 1888-1905; Lieutenant General Nelson A. Miles, 1865-1903; Lieutenant General S. E. M. Young, 1903.

 With most theatre goes a tramp role is popular, but one seldom sees a good play with a tramp role as the central figure. In this respect "A Thoroughbred Tramp" differs. The piece is decidedly strong, and the part of the tramp unusually good. At the Grand to night. Prices 10, 20, 30, 50c.

## HOTEL ORANGE

**Pacific Leased to Messrs. Richardson and Brennan of Springfield—Possession Taken Wednesday**

The Pacific hotel changed hands Wednesday and the Messrs. Frank and Charles Ratachak, the owners of the hotel property, have leased the hostelry to Messrs. H. G. Richardson and E. A. Brennan, of Springfield, for a period of five years, with the privilege of renewing the lease for ten years longer.  
 The new proprietors are experienced hotel men, well known by the traveling public; enterprising and progressive in their views and methods. Both gentlemen, until recently, have been connected with the Leland hotel of Springfield. Mr. Richardson has been a member of the office force for this well known hotel for the past fifteen years, while his partner has been night clerk for three years at the Leland, and previous to that time was for five years with the St. Nicholas hotel in the same city.  
 They are both young men and will give their personal attention to the conduct of the business. They were both here Wednesday with their attorney, S. D. Scholes, Jr., of the law firm of Barber & Scholes, of Springfield, and were given possession Wednesday morning. Mr. Brennan will remain here, but Mr. Richardson will return to Springfield to day for the purpose of assisting at the Leland during state fair week, when he will return here to remain permanently.  
 The new management contemplate a number of changes and improvements in the interior arrangement of the Pacific and these will be undertaken as soon as they become acquainted with their new surroundings and get the business well in hand.  
 Messrs. Richardson and Brennan will be cordially welcomed to the business ranks of the city and their well known reputation as hotel men practically assures the continued successful management of the Pacific hotel property. The Pacific has long enjoyed an enviable reputation and the traveling public can confidently expect nothing from the new management but the most modern conveniences and a thorough and first class hotel equipment and accommodations throughout.  
 The many friends of the Messrs. Ratachak will regret to see them retire from the active management of the hotel, where they have been eminently successful. They have not made known their plans for the future, but for the present, at least, they will remain in Jacksonville.  
 The bus and baggage line for the Pacific will continue to be managed by Fred O'Haver.

**GREAT PROGRESS.**  
 Some time before the war a man named Nelson worked as a farm hand for William C. Stevenson, of this county, and the general wages then paid were about \$12 a month, but this with good health and the economical ways of those times meant a great deal. As a matter of course, Nelson found in Mr. Stevenson a thoroughly honest employer and withal a man who was glad to give his employees good advice, and Nelson was sensible enough to take it, and so, instead of spending his money a little faster than he earned it, he saved it and much of the time was a lender to his employer and somewhat to others; so that when he decided to take Greeley's advice he had nearly \$1,000 saved up. He went beyond the Missouri river and earned some more and then found a place where emigrants to the west ferried across the Missouri river, and he secured possession of two ferry boats and went into the business. The tide increased and a village sprang up, which increased to Kansas City and its suburbs, and not long ago Nelson died worth over \$500,000 and yet he had no better opportunities than thousands of others who have died poor.

 Thursday—Governor's day.  
 Friday—Springfield day.  
 Tuesday and Thursday there will be a returning train for the west, leaving Springfield at 10 p. m.

**MILK PRODUCTS.**  
 A land flowing with milk is an ancient idea, but streets paved with it is a notion essentially modern. It is being seriously proposed to the municipality of Paris by a contractor of standing. He claims for a pavement of indurated milk the advantages of durability and noiselessness. Perhaps, also, in times of distress and turbulence it might provide a resource attractive enough to divert the populace from barricades and bombardment of the public forces. It is a sober truth that at the approaching dollmakers' exhibition there will be a great variety of objects made from indurated milk. These include dominoes, dice, cigarholders, "canes," umbrella handles, forks and spoons.

## ILLINOIS EDITORS' OPINIONS.

Cairo Standard: That Gov. Richard Yates will be a candidate for re-election has ceased to be a mere possibility and is now assured beyond peradventure. His formal announcement will be hailed with no small degree of enthusiasm by the entire southern part of Illinois. Alexander county, which has always figured conspicuously in all state conventions, stands ready to welcome the governor's re-nomination and to assist him in every way possible to retain his place at the head of the executive department, a position he has so honorably and creditably filled. No man can truthfully say that Governor Yates as such has failed to do his full duty in every instance where it was his duty to act, nor can any one point to any public act which was not wise and expedient. At no time when the interest of the citizens of this state was in jeopardy has he failed to use every honorable effort to do justice to all and injury to none.

Aside from his excellent official career, he has a strong personal character which makes him easily the favorite of the rank and file of the great middle and laboring classes. They will not give him up without a struggle. Unless some unforeseen event takes place between now and the state convention, the counties throughout the southern, middle and eastern part of Illinois will give Richard Yates their unanimous support in the state convention.

RECORD OF THE RECORD-HERALD. Galesburg Plaindealer: Republicans who quote the Chicago Record-Herald as an organ of their party want to bear in mind that the Record-Herald is the paper that hounded the late Gov. John R. Tanner because he would not appoint a man selected by Victor Lawson to a position on the Lincoln park board; it is the paper which supported Alschuler, Democrat, for governor as against Yates; and Dunlap, Democrat, against Whittemore for treasurer; which has always supported Harrison for mayor of Chicago against such good men as Judge Carter and Graeme Stewart; Victor Lawson, who controls the Record-Herald, is a free trade Democrat who gives alleged support to the Republican policy because the free silver doctrines of the Democratic party would be more disastrous to his financial interests than the protective policy of the Republican party.

NO GROUNDS FOR ATTACKS. Vandalia Union: The attack of several Chicago papers headed by the Chronicle, a Democratic sheet, and a few other papers in the state, on the administration of Governor Yates is for no other purpose than to weaken his candidacy for re-election. There are no grounds for these attacks. His administration has been clean and brave, and true to the platform of the party.

MAKING THE BEST GOVERNOR. Harrisburg Herald: Governor Yates is both cursed for his sins of omission as well as those he is supposed to commit, but all the same he is making the best governor the state has ever had.

IT WORKS THAT WAY. DuQuoin Tribune: In his candidacy for a re-nomination, Governor Yates is encountering some opposition that will do him more good than harm.

AN EDITOR'S OPINION. Our readers will be interested in the statement by Mr. John Edmonds, editor of the Daily and Weekly Courier at Lincoln, Ill. ## MACEDONIAN SITUATION

## Greek Editor's Explanation of the Eastern Trouble.

## BEGINNING OF THE INSURRECTION

Constantine D. Phasoularides Says  
Reliance on Russia Is Responsible  
For the Revolution and That Macedonia  
Is Satisfied With Turkish Rule—Greek Population and Interests Far Exceed Bulgarian.

"The New York newspapers do not seem to understand the Macedonian situation," said Constantine D. Phasoularides, the editor of Thymophylas, the Greek newspaper, recently to a reporter of the New York Commercial Advertiser.

"The trouble in Macedonia began about two years ago, when the Bulgarian revolutionary committee of Sofia was organized. Its object was to expel the Greeks from Macedonia. To carry on the conflict they obtained from wealthy Greeks, by force and blackmail, revolutionary funds. To quote from a pamphlet issued last May by the Society of Hellenism of Athens, 'From December, 1901, to the end of 1902 the Bulgarian committee assassinated about 600 Greek merchants and other wealthy Greeks of Macedonia, and from others by threat and blackmail they raised from \$50 to \$1,000 (\$250 to \$500) each.'

"By the latest statistics which the Greek government sent to the powers about the racial population of Macedonia, as reported in the Noni Homera of Trieste, Austria, on Aug. 22, the total population in the vilayet of Monastir, which consists of the districts of Koriza, Dibra, Seres and Elbasan, is 830,100, of whom there are 300,782 Greeks, 174,011 Bulgarians, 14,000 Servians, 12,000 Roumanians, 344,700 Mussulmans and 4,950 Jews.

"The vilayet of Salonika, which consists of the districts of Serres and Drama, has a population of 1,040,220, of which number there are 348,050 Greeks, 205,886 Bulgarians, 225,514 Mussulmans and 60,770 of other nationalities, of which number there are 51,000 Jews. Thus it is seen that although the Bulgarians lay claim to Macedonia they are decidedly in the minority.

"According to the statistics of the Bulgarian exarchate itself, there are 55,923 Greek pupils attending the schools in Macedonia and 19,344 Bulgarians. According to the statistics of the Turkish government, fifty-three Greeks to one Bulgarian pay taxes. "The Greek population is not only the largest, but the most progressive. The British consul in Salonika, writing to his government, said: 'Generally the Greek population in Macedonia is higher in numbers and education than the Bulgarians. They also surpass the Bulgarians in business and commerce. The Greeks, however, are quiet and avoid trouble, hoping that they will get benefit by peace, while the Bulgarians are always ready to commit any crime for their own benefit.

"Of the Bulgarians fighting in Macedonia today not one has been born in Macedonia. They all make inroads from over the frontier. The people generally are peacefully inclined and prefer to remain under the Turkish protection rather than under the criminal rule of the Bulgarians.

"Of course behind Bulgaria is Russia, who wants to grab everything." Is quote from an article written by Prince Mestorsky in the Graschaum of St. Petersburg. "If there were not Russian consuls in Macedonia there never would have happened these pitiful things. I am very sure that the revolutionary movement would never have arisen so strong in the absence of Russian consuls. We must not forget that Macedonia, Albania and Bulgaria are using every means to force Russia to go to arms against Turkey. I am asking our government, when things are in this condition, what is the use for us to have consuls in Macedonia. If I had the power in the government I would recall all our consuls from there."

"When the actual revolution began about a month ago in Krushova, according to the Acropolis of Athens and other Greek newspapers, 400 Greeks were slain and the city was ruined. According to the same paper, about thirty Greek villages were destroyed in the vilayet of Monastir. During the conflict of course some of these villages were destroyed by the Turks, who found it necessary to bombard them in order to drive out the Bulgarian revolutionists who were defending themselves there.

"According to the papers published in Philippopolis, none of the Greek merchants there can easily escape the blackmail of the Bulgarians who are practicing the 'money or your life' game.

"We find, then, that the Bulgarians have no right to Macedonia by either numbers or commercial interest. The real wealth of the country is with the Greeks."

## Swiss Guard For Serbian King.

King Peter of Serbia does not feel that he is in security at the konak (royal palace) and intends to establish a Swiss guard on the model of that existing in France at the time of the French revolution, says the Vienna correspondent of the New York World. This project is criticized by the inhabitants of Belgrade, but as a measure of precaution it appears to have been decided upon. It is reported that the king has ordered the formation of a secret Swiss guard of 100 men, to be stationed at the royal palace and to be armed with the latest type of making a proclamation.

## WASHINGTON LETTER

[Special Correspondence.]

They have mounted that famous warrior, William Tecumseh Sherman, on what seems to be a headless horse and hoisted him away up in front of the treasury department on one of the public squares. This headless horse impression is gained by those who ride on the street cars, and it is from the cars that ninety-nine out of every hundred will view the statue. As the cars go down Fifteenth street the statue comes in view, and there is Sherman, bareheaded and seated on a horse without a head. You stare and stare at the phenomenon, and as the cars swing into Pennsylvania avenue you get a faint impression of the head of the horse, but it immediately disappears, hidden by the trees, and you go on wondering whether it was intended to represent the old warrior in the thick of battle mounted on a steed which he has just had his head carried away by a cannon ball. But the horse is not headless. The artist, in an endeavor to give a pose to the equine part of the statue which should be different from others in this city, has curved the neck around to the right, so that the body only is outlined against the sky and the head of the animal is not visible. It is the most slightly statue in the city and the most improperly located. Owing to the disagreeable effect produced, some effort may be made to remove it to a more appropriate location.

"At the Front." Judge Advocate General Davis has decided that Washington was "the front" during the civil war and that the various District of Columbia volunteers who defended the capital before the regulars and the state troops could get here were at the front.

The question came up in the case of an old mechanic who had applied at the navy yard for employment and gave in his civil service answers the facts of his service in a local militia company which guarded President Lincoln on the way from the Baltimore and Ohio station to the White House and on his inauguration day was posted on the roof of the capitol as a sharpshooter to fire on any one who attempted to interfere with the ceremony.

The company also acted as advance guard for Ellsworth's zouaves when they marched to Alexandria.

The old mechanic has been waiting several years for his job and found that his name had been slipped down the list on the ground that other men who applied had served "at the front" and he had not. He demanded a decision at the war department on his case, and he got it and will now get his job.

Tunnel Under the Capitol. The District government recently granted the formal permit to the Philadelphia, Washington and Baltimore railroad, as the Pennsylvania road is known here, to construct the twin tunnel under the United States capitol building and the adjacent blocks and streets.

The permit was held up for several weeks because of a difference between Major Biddle, the engineer commissioner, and the railroad engineers in regard to the motive power to be used to propel cars in the tunnel. Major Biddle insisted that electricity should be used, and the railroad men wanted to be allowed to use steam.

Electricity was finally agreed on. The tunnel will be 3,000 feet long, beginning at the intersection of Massachusetts avenue and First street, north-east, going under Capitol hill to New Jersey avenue and D street, southeast. The total cost of the work will be approximately \$800,000.

There will be two branch tunnels connecting with yards and tracks of the Pennsylvania road in South Washington.

## Payne Finds a Lost Family.

Postmaster General Payne's efforts to find four children who left their home in Australia about twenty-two years ago have been successful. Some time ago, Mr. Payne received a pathetic letter from Mrs. Lavers at Brisbane, Queensland, Australia, asking him to aid her in locating her four children who were brought over to the United States by her daughter-in-law. He has located one of her sons at Kearns, Houghton county, Mich., who has informed General Payne that he knows where the other three children are and that he will promptly notify his mother of their whereabouts. Postmaster General Payne feels happy that he was instrumental in locating the children of a heartbroken mother.

## End of Spanish War.

Adopting an opinion rendered by Solicitor Hanna, acting judge advocate general of the navy, the acting secretary of the navy, Mr. Darling, has made a decision that for all purposes affecting the United States navy the Spanish war ended Dec. 10, 1898, the date of the signing of the treaty of peace. In reaching that conclusion the navy department disagrees with a ruling of the war department to the effect that the war was not closed for administrative purposes in that department until April 11, 1899, the date of the exchange of ratifications of the treaty.

## PLATT FOR WARNER

Republican Convention Indorses  
the Congressman for Illinois Governor.

Urbana, Ill., Sept. 23.—Congressman Vespasian Warner was indorsed for governor to day by the Platt county convention assembled at Monticello for the purpose of nominating a candidate for county corner. The indorsement was received with much enthusiasm by the delegates and a large crowd of spectators. The resolution was short and to the point, as follows:

"Resolved, By the Republicans of Platt county, in convention assembled, that we indorse Col. V. Warner for governor of Illinois, and ask him to be a candidate for the Republican nomination."

## THE ORIGIN OF COFFEE.

(FROM SUCCESS.)

As to the history of coffee, the legend runs that it was first found growing wild in Arabia. Hadji Omar, a dervish, discovered it in 1285, 617 years ago. He was dying of hunger in the wilderness, when, finding some small, round berries, he tried to eat them, but they were bitter. He tried roasting them and these, he finally steeped in some water held in the hollow of his hand, and found the decoction as refreshing as if he had partaken of solid food. He hurried back to Mocha, from which he had been banished, and, inviting the wise men to partake of his discovery, they were so well pleased with it that they made him a saint.

The story is told that coffee was introduced into the West Indies in 1723, by Chirac, a French physician, who gave a Norman gentleman by the name of De Vieux, a captain of infantry on his way to Martinique, a subtle plan. The sea voyage was a stormy one, the vessel was driven out of her course and drinking water became so scarce that it was distributed in rations. De Vieux, with an affection for his coffee plant, divided his portion of the water with it, and succeeded in bringing it to Martinique, although weak, not in a hopeless condition. There he planted it in his garden, protected it with a fence of thorns and watched it daily until the end of the year, when he gathered two pounds of coffee, which he distributed among the inhabitants of the island to be planted by them. From Martinique coffee trees were in turn sent to Santo Domingo, Guadeloupe and other neighboring islands.

The coffee tree is an evergreen shrub growing in its natural state to a height of fourteen to eighteen feet. It is usually kept trimmed, however, for convenience in picking the berries, which grow along the branches close to the leaves and resemble in shape and color ordinary cherries. The tree can not be grown above the frost line, neither can it be successfully grown in the tropics. The most successful climate for the production of coffee is that found at an altitude of about 4,000 feet. Anything much above this is in danger of frost, which is fatal to the tree; and, when coffee is grown much below this it requires artificial shade, which materially increases the cost of production and does not produce as marketable berries. It is owing to this particular requirement that coffee has never been successfully produced in the United States.

## FEET SWOLLEN TO IMMENSE SIZE.

"I had kidney trouble so bad that I could not work," says J. J. Cox, of Valley View, Ky. "My feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure, which made a well man of me." A. J. Obermeyer, City drug store.

## FLORETH'S

## BARREL OF MONEY

Dowle's Sinews of War for Invasion of New York.

Chicago, Sept. 23.—With a twenty-foot map of New York on the wall behind him and standing beside a red, white and blue contribution barrel, John Alexander Dowle exhorted thousands of his followers last night to support his approaching invasion of Gotham. When the meeting was over the barrel was half filled with money. So large was the amount given that no attempt was made to count it until to day.

As the crowd advanced Dowle announced that he had given \$500, Elder Spelcher \$225 and others already over \$1,000. Blanks were given on which those who had no money could make pledges. All sorts of gifts were given—horns, guitars and even dolls by the children. One man pledged his horse and buggy.

Cash contributors, headed by over a hundred children, dropped money into the barrel until practically all present had made an offering. Many members of the passing throng of givers were either fat, or lame, or blind, but from each the "prephet" received something to swell the invasion fund.

The display of millinery shown at Herman's grand fall millinery opening Sept. 28 and 29 will excel anything of the kind outside of New York City.

## WON A GOLD MEDAL.

Miss Nettie Braun, who is visiting her cousin, Miss Dubelbeiss, of Rochester, N. Y., has had a part in a splendid triumph. There has been in the city of New York a great fashion show, at which there was competition in many departments of wearing apparel of various kinds, dresses naturally taking the lead. Competition was open to the country at large and many entered, among them Miss Braun's cousin, and she carried off the gold medal for the most artistically and attractively made dress of all on exhibition, and there were many. Miss Braun designed and made the collar, which was a part of the garment which won the honors. The dress was of crepe de chine, an elegant affair, and sold for \$235.

## REUNION OF 115TH ILLINOIS.

The annual reunion of the 115th Ill. volunteers will occur in Springfield Sept. 29 and 30, 1903 in the Odd Fellows' hall. To this reunion there is extended an invitation to the wives, sons and daughters of members of the regiment to be present. The afternoon of the first day will be characterized by memorial exercises, which will be followed by a banquet and camp fire reminiscences and other addresses. All comrades are cordially urged to be present. An invitation indicating the above program was received Wednesday by Mr. E. M. Kinman, whose father was a member of the 115th Ill. Vol. Inf., and accompanied by Mrs. Kinman, he hopes to be present at the exercises.

## SOCAL POSTPONED.

The students' social of the Christian church, announced for Friday evening of this week, has been indefinitely postponed. A further announcement will be made later.

## DAUGHTERS OF THE COVENANT.

The Daughters of the Covenant of Centenary church met Tuesday afternoon at the home of Mrs. T. H. Buckthorpe and spent the afternoon sewing for a fancy bazar, to be held during the winter. The society is composed of the younger ladies of the church and will meet each week for the above purpose between now and December.

## SECURED RIGHT OF WAY.

The Burlington railroad has made satisfactory arrangements with Lincoln Cowdin, of Joy Prairie, for the purchase of a right of way strip through his farm. The strip comprises about four and one-quarter acres and will leave Mr. Cowdin's house and about 25 acres on one side and the main part of the farm on the other side of the right of way.

## I. O. O. F.

The officers and members of Illini Lodge, No. 4, I. O. O. F., are requested to meet at their hall Friday, Sept. 25, at 8 o'clock a. m., for the purpose of attending the funeral of our late brother, George T. Hopper. Members of Urania Lodge and visiting brothers are invited to attend. Thomas Hughes, N. G. J. A. Obermeyer, Sec.

## SPRAINED HIS ANKLE.

Percy Peters met with a severe accident at the high school Wednesday afternoon while engaged in a friendly scuffle, resulting in a badly sprained ankle. Dr. Rowe was called and treated the injured member. Later the young man was taken to his home at the Central hospital. The injury though not serious is very painful and he will probably have to go on crutches for some time.

## STOMACH TROUBLE.

"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these tablets. You are certain to be pleased with the result. Price 25 cents. For sale by all druggists.

## HE CURED THE LITTLE GIRL.

Mr. Herman Muller, senior member of the firm of Muller & Leykom, extensive lumber and general merchants at Polar, Langdale Co., Wis., says: "My little girl was troubled with a bronchial cough and we tried several remedies without satisfactory results. We finally gave her a few doses of Harts' Honey and Horehound, which quickly cured her." Harts' Honey and Horehound is a never failing cure for all throat and lung troubles to which children are subject. It is very pleasant to take and the absence of any deleterious or dangerous drugs makes it especially valuable for small children. 25c, 50c and \$1 bottles. Sold by Lee P. Allcott, druggist.

Hats to suit the most economical buyer at Herman's grand fall millinery opening Sept. 28 and 29.

## DR. HARPER

Defends the Turks—University President Returning from the Orient Tells of His Visit.

Chicago, Sept. 23.—The Turk does not deserve all the opprobrium that has been thrown upon him.

This statement was made by President William R. Harper, of the University of Chicago yesterday in telling of his experiences in Constantinople, where he went for the purpose of securing a firman giving the university the right to excavate the ruins of ancient cities in the neighborhood of ancient Babylon.

"The Turks have received much unjust abuse," continued Dr. Harper. "There are many things we should take into consideration before passing judgment on Turkey as a governing power in Europe. We are accustomed to think that Turkey has made no progress. If we compare the conditions in Turkey to day with those which existed twenty-nine years ago, when Abdul Hamid came to the throne, it is found that the progress made is amazing.

"We were in Constantinople for the celebration of the sultan's birthday anniversary. The streets were crowded, but I saw no disorder and no drunkenness. I did not see a single man intoxicated all the time I was in Turkey."

## NEW MILEAGE.

Chicago, Sept. 23.—It has been decided at a meeting of the passenger traffic officials that the new 2,000 interchangeable mileage book will go into effect Nov. 1.

The book will be good on trains and no question will be raised as to whether the person presenting it is the purchaser or not.

The following lines have entered the new bureau and will accept the book on their trains: Chicago & Alton, Chicago & Northwestern, Chicago, Burlington & Quincy, Burlington Western, Chicago, Milwaukee & St. Paul, Minneapolis & Omaha, part of the Great Northern, part of the Northern Pacific, Quincy, Omaha & Kansas City and Wisconsin Central. Officials of the roads represented in the new mileage bureau say that all western lines, with the possible exception of the Rock Island, will join the bureau as soon as it is in operation.

## HOLD CONFERENCE.

Washington, Sept. 23.—Representative Joseph G. Cannon, destined to be the next speaker of the house of representatives, is in Washington. He has been consulting with officers of the administration, and having quiet talks with members, who mysteriously "happen" to visit Washington at this time. Several of his conferences have been with Secretary Shaw. From these it appears that the prospect of financial legislation at the coming session of the congress is exceedingly slim. Mr. Cannon, months ago, was put in the attitude of questioning the advisability of having financial legislation. In this, it is understood, he has received the silent support of the secretary of the treasury.

## RACES TO DAY.

The Gentlemen's Driving club will give their third matinee of the season at the fair grounds this afternoon. There will be five races and over thirty entries and some good racing is sure to be witnessed by those who attend. An excursion will be run from Mt. Sterling for the occasion and a large crowd is expected from the Brown county capital. Jeffries' band will furnish music for the afternoon.

Mrs. A. M. Kaiser, of Alexander, passed through the city Wednesday, enroute for Atchison, Kans., where she will make a visit of several weeks with her daughter, Mrs. M. J. Hines.

## TWO REPORTS.

Kansas City, Sept. 23.—The credentials committee to day presented two reports to the convention of the International Association Bridge and Structural Iron Workers on the status of Local Union No. 2 of New York city, whose leader is Sam J. Parks, and which was recently suspended by President Buchanan. The majority report referred the matter to the convention for final action, while the minority report declared suspension of the union was unconstitutional. Parks and fellow members were requested to leave the hall until the convention had disposed of their case and this they did peaceably and without ado.

## DEATHS.

Philadelphia, Sept. 23.—Rev. Henry R. Percival, a prominent Protestant Episcopal divine, is dead at his country home in Devon, a suburb, aged 40. He was an extensive writer on theology, many of his books being used as standard works in nearly all Episcopal theological seminaries of this country.

Chicago, Sept. 23.—Ex-Senator Charles E. Farwell, died at his home in Lake Forest to day of heart trouble. Farwell has been a prominent figure in local, state and national politics since 1844, when he came to Chicago from Ogle county, Ill.

## NO WORD RECEIVED.

Washington, Sept. 23.—Not a word has been received by Herran, Colombian charge, up to a late hour to night regarding the Panama canal treaty. Herran says he will not be surprised if Colombia should take initiatory steps for the renewal of canal negotiations along somewhat different lines from that on which the last convention was framed.

## RESULT OF A QUARREL.

Bessemer, Mich., Sept. 23.—As the result of a quarrel Annie Vosenak, 24, was shot and instantly killed last night by Ed Mieski, her former fiancé, in front of her mother's home. Meliski then shot himself in the abdomen. Recovery is doubtful.

## ILLINOIS UNIVERSALISTS.

Peoria, Sept. 23.—After a heated debate before the sixty-sixth convention of the Illinois Universalists to day Marselles was selected as the next meeting place. Reports presented show the Universalist of Illinois to be in better shape financially than ever before.

## LOSES AN EYE.

Rockford, Sept. 23.—Henry "Hunky" Hines, captain of the Davenport base ball team in the Three I league, met with an accident last night that lost him the sight of his right eye. Hines was in a blacksmith shop when a sliver of metal struck him in the eye, piercing the eye-ball so deeply its removal was necessary.

## No Fresh Vegetables.

"The Dubleys are not boarding here any more," said the first boarder. "No," replied the other. "They have become strict vegetarians, and so they have had to go to housekeeping."

"But surely they could be vegetarians here."

"Not strictly so. Here they are mostly canned vegetarians."—Life.

## Used the Whole Book.

"That count," said Miss Baltimore, "will never do for me. He is too wasteful and profligate in his habits."

"Why, what has he done now?" asked her friend.

"Done! Why, he had the nerve to write his full name, titles and addresses in my autograph album."—Baltimore News.

## PEOPLE OF THE DAY

**A Popular "Pipe."**  
Colonel Albert L. Mills, superintendent of the United States Military Academy at West Point, is in high favor with the cadets because of the recent order which allows pipe smoking at the academy. Pipes and tobacco will hereafter be obtainable at the cadet store, but neither cigars nor cigarettes are to be sold. Colonel Mills says he hopes the new order will lessen cigarette smoking by allowing pipes to be smoked in

COLONEL ALBERT L. MILLS.

quarters during recreation hours, for with pipes easy to get and cigarettes only to be obtained with difficulty it is argued that the smokers of the corps will grow fond of pipes.

Colonel Mills made the change in the rules concerning smoking after gaining the consent of Secretary Root. All hands at the academy are singing the praises of the "supe," as they call him.

**Policeman Burdette.**  
Mrs. Robert J. Burdette, wife of the famous humorist, has been appointed a special police officer in and for the city of Pasadena, Cal., where she resides. She has been adorned with a police badge, the number of which is 36. She is the first woman to receive such an appointment in California.

Mrs. Burdette is a member of the newly organized Pasadena Society for the Prevention of Cruelty to Animals. The appointment is, at her request, in being her determination to rescue dogs, cats, horses and other animals from abuse and persecution at the hands of thoughtless and mischievous boys and from their cruel and inconsiderate masters.

Her husband, the inimitable Bob, is a member of the police commission. "I have been telling her," said he, "that, although she is a special policeman, I am a police commissioner and that it is the duty of a policeman to always salute a commissioner when she sees him. But all I have been able to get her to do thus far," and his voice took a sorrowful cadence, "has been to make faces at me."

**Tactical Sir Thomas.**  
By his tact and amiability Sir Thomas Lipton has made thousands of friends during his several visits in New York city. One day on the Erin he was watching the Shamrocks from the bridge, and his guests, among whom were some pretty girls, were on the deck below, screened from the sun by awnings. Sir Thomas went down to chat with them for a few minutes and then said, "I think I'll have the awning taken down." "Don't, Sir Thomas," the women all exclaimed in chorus, "we'll roast here." "But," tactfully replied the baronet, "I'm lonely on the bridge, and I miss your pretty faces." No one objected to the awning coming in after that.

**His Sleep Comes High.**  
Probably no ruler on earth has more cause to feel uneasy when bedtime comes than the sultan of Turkey. Abdul Hamid shows that he doesn't feel safe when asleep by requiring a guard of several officers and a score of private soldiers in and about his bedroom at night. It is estimated that the sul-

ABDUL HAMID.

tan's nocturnal guard costs, expressed in American terms, \$300 a night, and the officers and men get their wages every morning.

This expensive guard has been maintained by the sultan since the assassination of the king and queen of Serbia. Of course the timorous ruler of Turkey always has been particularly "well guarded at night, but the number at Abdul Hamid's bedside is a record. The command of the guard is entrusted to eight of the sultan's most faithful generals, two of whom are on duty every night.

## TROLLEY SLEEPING CAR

**Unique Build of Vehicle Designed For Night and Day Use.**

**EASILY TURNED INTO PARLOR CAR**

**Head of a Boston Railway Syndicate Believes That Two Years Will See Service Between the Hub and New York—The Run Will Be Made in About Ten Hours.**

A through electric service between New York and Boston, in parlor, dining and sleeping cars, will be in operation within two years. This is the confident prediction of James F. Shaw, president of the Boston and Worcester Electric railway, says the New York Herald.

Tracks on land owned by a railway corporation are now being built from Worcester to Hartford, a distance of sixty miles. From Hartford this line will be continued to New Haven, forty miles farther. From City Hall square, in New York, a four track line is to run to Port Chester. The line between Port Chester and New Haven will complete the system that will give Boston through service to Gotham.

With the completion of this line it is stated that residents of New York and Boston will be able to take the trip between the two cities in only twice the running time of the present steam railroads at half the expense and in modern sleeping and parlor cars.

Finishing touches have already been put by a Boston syndicate on the first two trolley sleepers ever built, which are to make their first trips during the present month between Indianapolis, Ind., and Columbus, O. Twenty-four more of these cars are in process of construction.

Over the Boston and New York line will run magnificent cars not unlike those that are to be put in operation in the west. The cars are being built by a car company in Indiana which will own and operate these just as the Pullman company owns and operates its cars over the steam roads.

The smallest of the sleeping cars will contain twenty berths. The compartments for each pair of berths are made by dropping mahogany shutters similar to those used in roll top desks. These are drawn out of the sides and floor and dovetail into each other when up, making a perfectly rigid and firm wall with a doorway. The upper berth is let down from the ceiling on the same principle as is used in the Pullman.

Comfortable upholstered chairs, used in the day parlor car, will be combined to make the lower berth bed. Two of these chairs are put face to face. By pressing a spring the arms spread out, the chairs then becoming one box spring mattress bed, four feet wide and seven feet long. Every modern convenience is to be provided for the passengers, even electric hair curlers for women and electric cigar lighters for men. Each compartment will be ventilated separately, and windows will be raised and lowered by pressing a button.

When the night's ride is over the framework of the compartments will be rolled into the walls and into the floor, the beds will be folded into chairs, and the car will be transformed into a vestibule coach within half an hour.

The combination sleeping and dining cars will have a ten foot apartment added between the berths and the rear dressing room. Temporary tables will be placed between chairs. It is claimed for the sleepers that the sleeping conveniences will be superior to those used in the ordinary Pullman. The cost of riding will be far less than the rates charged in the others. During a night's run from Boston to New York it will be possible to obtain an entire compartment for \$2. Single berths will cost \$2, but two travelers occupying the same compartment can get it for \$1.

Owing to the fact that there will be no cinders and dust will be obviated, the car windows of the sleeper may be left open all night. Over the Boston and New York electric line the cars will be run at about half the speed attained by the steam roads.

Each car will be fifty to sixty-five feet long and will cost \$21,000. It will be about two-thirds as heavy as the regulation Pullman sleeper. The power under these sleepers will be four motors, one to each axle, generating 600 horse power and capable of an ordinary rate of sixty miles an hour.

This new development of the trolley is only a natural step in the wonderful progress of electric transportation, and, in fact, has been foreshadowed by experiments in both this country and abroad. Few persons realize that it is only sixteen years since the first "boomstick" car was given a trial.

**An Educator's Exploring Trip.**

President Harper of the University of Chicago has succeeded in securing from the sultan the right to explore the ruins of ancient Babylon. The university has now obtained permission to excavate in Tel Ibrahimi. Application was made to the sultan for permission to explore the ruins of Babylon and its neighborhood in 1900, and after long delays it was granted. But further delays occurred, and the trade was not issued. Then it was discovered that the Germans had received permission to explore the same territory. It is understood that the ruins of the temple in which Nebuchadnezzar offered sacrifices in 580 B. C. and also an extensive library of clay tablets will be uncovered.

**She Was Won.**

Miss Bonanza—Yes, we are engaged to be married. Ah, he is my ideal! Mrs. Olson—Oh, he'll outgrow that—Toronto Globe.

## SPORTING WORLD

**Lemoyne, All Around Athlete.**  
Harry Lemoyne, the crack Brookline (Mass.) swimmer, is to go to Harvard university this fall, and wearers of the crimson are delighted. Lemoyne is one of the ablest all around athletes in the

HARRY LEMOYNE OF HARVARD.

country, and besides his sensational swimming powers he is a star runner, jumper, weight thrower and baseball player.

Lemoyne will probably captain the Harvard swimming and water polo teams during the coming winter.

**White and Britt.**

Word has been received by the Yosemite Athletic club of San Francisco that Jabaz White, the English light weight champion, will sail for this country next month. White is coming to arrange for a fight with Jimmy Britt, to be decided in San Francisco in November.

The Yosemite Athletic club has offered a liberal purse for the meeting and has agreed to pay White's expenses. A battle between this pair would be of international interest and would serve to give Americans a chance to get a line on the Englishman, who wants to make a match with Joe Gans for the light weight championship of the world.

White's last battle was with Spike Sullivan, whom he whipped. According to the present plans, White and Britt are to meet at 133 pounds. The weight at which the fighters shall go into the ring is all that stands in the way of the match. White believes that by defeating Britt he will be entitled to fight Gans. Ben Jordan, who is to meet Young Corbett in November, may accompany White to this country.

**Donovan's Opinion.**

"Scientific ball is all right," says Paty Donovan of the St. Louis Nationals, "and the game of course has improved with the passage of time. Anyhow, the wise critics say so, and why should we dispute them? Still it seems to me that the games today have more of the mechanical and less of the picturesque about them."

"Even mechanical play," continued Donovan, "when performed with snap and speed is exciting and pleases the crowd, but I'd like to see the sort of tricks turned that were brought off continually in the long ago, little plays here and there which often changed the whole tide of the game and were always the product of a ready brain. Not many of even the big stars today run those tricks either on the inside or outside."

**To Boom Amateur Athletics.**

There is to be a great boom in amateur athletics in St. Louis between now and the close of the world's fair. Already a \$300,000 building has been completed for the Missouri Athletic club, and the finest talent that can be procured is to have charge of the various departments of the organization.

Details of the management and maintenance of the big club are to be looked after by Charles H. Gensinger, who reorganized the old Manhattan Athletic club of New York and founded a big proprietary club in New Orleans.

**McGinty's Underhand Ball.**

There is one style of delivery that Joe McGinty, the crack twirler of the New Yorks, depends upon more than any other for his success, and that is his underhand ball. It is only when he is badly in the hole that he uses his overhand curve, depending almost entirely upon the old style of underhand delivery for his effectiveness.

## DOG FISH FOR DINNER.

**Professor Field Pronounces the New Food a Delicacy Edible.**

Professor Irving Angell Field of Harvard university has been studying at Wood's Holl, Mass., fishes of no food value and their destruction of the food fishes, says the New York Tribune. Experimenting with dogfish, the scourge of fishermen and lobster catchers along the coast, he has found that the dogfish, when properly cleaned and cooked, is a very delicate edible, with a fine flavor. The dogfish feeds on lobsters and crabs, frequenting clean sandy beaches, and is therefore one of the cleanest of sea fish.

To a class at the summer institute not long ago Professor Field served a dinner of dogfish, without telling what it was until all had eaten. Every one agreed that it was delicious. The fish was fried or broiled. Professor Field is now studying various ways of utilizing the fish commercially aside from food.

**An English Jury.**

Trial by jury in civil actions in the county courts in England has long been declining in popularity. On one circuit in which several thousand cases of some importance were disposed of during 1902 not a single action was tried with a jury. This is certainly not surprising if county court juries often behave as did the five good men and true whose strange methods in arriving at a verdict were described by a county court judge in the London Times the other day. The case, which arose out of an accident, lasted two days. "The jury of five retired," said No. 1, "Oil, Grease & Oil are my solicitors; my verdict is for them." Oddly enough, No. 2 and No. 3 also employed the same solicitors, and so the three were sold for Oil, Grease & Oil. For hours Nos. 4 and 5 held out. Night was far advanced; they were cold and hungry and submitted. "This is bad enough, but what the county court judge adds is even more calculated to make all litigants' flesh creep. 'Up spoke No. 1, 'Let me see; were Oil, Grease & Oil for plaintiff or defendant?' But, alas, none of the five knew."

**Ships For War and Peace.**

Those unfamiliar with the differences in the construction of ships made for war and peace may wonder that the speed of 13.1 knots an hour maintained by the Kearsarge is a cause for jubilation when passenger steamers make more than twenty knots. The passenger ship, being built for speed, is given a length ten times her beam measurement, while in the floating battery the proportion is but five to one. The "liner" uses 25,000 to 37,000 horse power, while the Kearsarge uses but 6,500. The Kearsarge made in her official trials 16.84 knots, but she was then greased for the occasion. Every lump of coal used had been sorted out by the builders, and a crew, every man an expert, employed regularly in trials, sustained that speed for but four hours and in smooth water.

**Stole to Get a Husband.**

At Budapest recently a servant girl absconded with \$500 belonging to her employer. She was subsequently arrested, but no money was found on her. She has since confessed to the theft, but states that she paid the money over to a married woman named Hauser, who consented to sell her husband to her for the sum in question; the girl being madly in love with the man. When she found out that she had been deceived and that the married couple were keeping the money and enjoying themselves with it the girl made a full confession. The authorities have ordered a thorough search to be made in the house of the Hausers in the hope of recovering some of the money.

**How Glaciers Run Mills.**

Switzerland and southern France are using their glaciers to turn their mills. At certain altitudes in various localities these mighty floods of ice and snow, they come bounding down the mountain side melt into glacial water. This is now diverted into pipes and ditches and carried thousands of feet to the valleys below. Hydraulic engineers in France say that the water power in the mountainous districts of that country would produce electrical energy equivalent to 10,000,000 horse power.

**Gothic House Furnishings.**

Several signs of the times point to a Gothic revival in house furnishing, and some beautiful Gothic furniture is being placed on the market. It is built on the same straight lines as the mission furniture, but is a trifle less severe. The Gothic style is distinguished by beautiful medieval carvings and, though usually associated with churches, appears to be equally suitable for the home.

**ROMANOV'S ESTATE.**

Miss Goelet, the fiancée of the Duke of Devonshire, will be on historic ground when she places her dainty foot upon the 60,500 acres of the duke in the heart of Roxburghshire, in England, says the New York Press. Though not his birthplace, this county is the land of Sir Walter Scott. Possibly her great love for the Waverley novels romantically inclined Miss Goelet toward the young man whose ancestors were friends of the famous novelist. The original spelling was Roxburgh. The town which gave the county its name is still so spelled.

Celebrated battles were fought near Floors castle, the peculiar name of the seat of the Dukes of Roxburgh, and none was more bloody than that of Anstruther Moor. Here it was that Lillith, a Scottish maiden, did prodigies of valor.

Some of the Goelet millions will make Floors castle as fine as the Vanderbilt millions have made Blenheim. The renowned old cockroach-cobweb hall will readily absorb about \$7,000,000 before it gets into condition for the heiress. Floors has long been celebrated for its gardens and conservatories, the best kept up places of their kind in Scotland. The castle is very old. As far back as 1450, when it was held by the English, King James II. of Scotland laid siege to it, and was blown to pieces by the bursting of a cannon. The very spot on which the king died is pointed out to visitors.

**PENNY BATHS FOR THE POOR**

**A Plan From Bonn on the Rhine to Benefit Chicago.**

Floating bath houses will dot the Chicago river next summer, and the poor will have a chance to keep clean at the rate of 1 cent a bath, says the Chicago Chronicle. Henry E. Weaver will find the money to build the barges, buy the towels and the first cargo of soap, and the bath houses will be expected to pay for their keeping after that. But this is not all. Artistic fountains will adorn the ghetto district, and it will be Mr. Weaver's money that will build at least one of these.

"In Europe fresh running water does much to make the cities attractive," said Mr. Weaver. "Why should not the same be true in Chicago?"

The bath scheme comes from Bonn on the Rhine. "They have floating bath houses there that measure 40 by 100 feet," said Mr. Weaver. "Thousands bathe during the season, and the inhabitants, no matter how poor they may be, are always clean. The advisability of a floating bath house may be readily seen. Sometimes the poor will not travel far to bathe, but bring the means to their doors, and it is a different matter. The barges are moored to the bank and remain until the inhabitants bathe. One section of the city is clean when they float down the river to another point. The charge of 1 cent will pay the cost of keeping the baths. The water in the Chicago river is plenty good enough to bathe in."

### HORSES FOR STATE FAIR.

Oliver Shuff, the well known horse man, is preparing a string of horses for the state fair and has completed arrangements for taking them to Springfield next week. He will exhibit principally in the show ring and saddle class and will enter the contest for high school gaited horses. He has always been very successful both at Springfield and in St. Louis and his years of experience and his peculiarly successful methods always find him on hand each year with an unrivaled string of fine animals.

He will no doubt return with many blue ribbons. It is also understood Col. John R. Robertson will enter his fine driving team in the show ring at the state fair and doubtless other Morgan county horsemen will compete for similar honors.

One of the most important requirements in a medicine to be given to small children should be that it is pleasant to take. Bad tasting medicines disturb the stomach, destroy the appetite and it is extremely difficult to get children to take them. The pleasant flavor of Re-Go Tonic Laxative Syrup, the certain cure for dyspepsia, constipation and biliousness, pleases the most sensitive persons and is the ideal laxative for young children. 25, 50c and \$1 bottles sold by Lee P. ### EVENING COMPANY.

Mr. and Mrs. Henry Vieira entertained a party of friends Wednesday evening at a delightful company given at their home on North Diamond street. The company was given in honor of John L. Correa, of Denver, Colo. There were about twenty-five guests present and the evening was most pleasantly spent with music and games. Elegant refreshments were served and in every particular the function was thoroughly enjoyed. Among those present were: Misses Mamie Day, Hattie and Jessie Vasconcellos, Alta and Gladys Vieira, Grace DeFreitas, Anna Day, Julia Correa, Nettie Pires, Lily and Blanche Vasconcellos and Mrs. Gus Vieira and Messrs. John E. Day, Joseph Pires, Charles DeFreitas, Jos. Mendosa and Charles Goveia; also Mrs. Andrew Radin and sons Oliver and Sidney, of Trinidad island.

### THE DEATH RECORD.

#### HOPPER.

George Taylor Hopper passed from earth very suddenly Wednesday morning about 5 o'clock at his home, 412 South East street. Mr. Hopper had been ill for two weeks with typhoid fever, but the progress of the disease had been satisfactory and his sudden demise came very unexpectedly, and was a great shock to his family and friends. About 5 o'clock Wednesday morning Miss May Hopper, his daughter, left him for a few moments, when she heard him groan, and returning found him in a changed position, his face an ashy pallor. She at once summoned a physician, but before he arrived the deceased had passed away. Death was due to a sudden affection of the heart, caused by the fever.

Decedent was about 60 years of age and was born in England, coming to this country in 1856. He was married a number of years ago to Miss Fannie Fox, of Sinclair, who preceded him to the land beyond twenty-three years ago. Since that time Miss May Hopper, only child of the deceased, has acted as his housekeeper and during these years and in his last sickness he has had the ministrations of a dutiful and affectionate child.

For years Mr. Hopper followed the occupation of farming, but in 1894 he formed a partnership with Richard Dodsworth and since that time the firm have conducted a successful livery and feed barn on East Morgan street.

Mr. Hopper was a man of sterling character and integrity and made hosts of friends who were endeared to him by his strict business methods and honesty of purpose in all the affairs of life.

He was a member of Centenary church and also of Iliini lodge, No. 4 of Odd Fellows. He is survived by six brothers, Thomas, of Sinclair, and James, Hassel, Richard, Charles and Philip, of this city, and by two sisters, Mrs. Jane Hunter, of Sinclair, and Miss Hannah Hopper, of this city.

The funeral will be held at Hebron church, near Sinclair, Friday morning at 11 o'clock and the remains will be taken from his late residence at 9 o'clock Friday morning. Friends desiring to view the remains will please call at the residence to day.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." J. A. Obermeyer, City drug store.

### OFF FOR COLORADO

Dr. and Mrs. Howard Turner Carriel Left for Coal Basin This Morning.

Dr. and Mrs. Howard Turner Carriel, who recently returned from St. Louis, where they had been on a brief wedding trip, left early this morning for Chicago on their way to Coal-basin, Colo. They will be met in Chicago by Mr. Wilbur Anderson and escorted to his beautiful north side residence, where they will be delightfully entertained by Mr. and Mrs. Anderson, Mrs. Anderson being a former girlhood friend and neighbor of Mrs. Carriel. After leaving Chicago they will visit on their way home in Denver, Colorado Springs, Glenwood Springs, Pueblo and other Colorado points.

During their brief stay in the city since their return from St. Louis, Dr. and Mrs. Carriel have been entertained at a number of post-nuptial dinners, suppers and luncheons that rivaled the many bridal parties given for this popular couple. Among the most enjoyable of these post-nuptial functions were two musicals given at the home of the brother and sister of Mr. Carriel, Mr. and Mrs. William L. Roberts, on South Church street.

### THE MATRIMONIAL RECORD

#### CARDIFF-HYATT.

Harvey Cardiff, of Petersburg, and Miss Lillian Hyatt, of Greenville, were married Wednesday morning at 11 o'clock by Esquire Arenz, at his office.

#### TURNER-DAVID.

George W. Turner, of Mt. Sterling, and Miss Ethel A. David, of Brooklyn, Schuyler county, were married Wednesday afternoon at 4:30 by Esquire Albert Arenz.

#### WOLKE-KEMP.

The marriage of Miss Bertha Kemp, of this city, to William Wolke, of Waukegan, was solemnized Wednesday evening at the home of the groom's parents on Edgmont street. Rev. T. H. Marsh, pastor of the Baptist church, officiated in his usual impressive manner. The house was tastefully decorated and a large number of friends and relatives were present.

The bride is the daughter of Mr. and Mrs. L. J. Kemp and has resided in this city all her life. Her attractive manner and kindness have won her many friends.

The groom is the son of Mr. and Mrs. John Wolke and is an upright and industrious young man. He is employed as a machinist in Waukegan and is popular in that city.

Mr. and Mrs. Wolke will leave Saturday for Waukegan, where they will reside and will be at home to their friends after Oct. 1. Many handsome presents testified to the high esteem in which the bride and groom are held in the community. Those present from out of the city were: Newton Kemp, of Winchester; Mr. and Mrs. J. Ludwig, of New Berlin; Joe Ludwig, of Siegal; Misses Fena and Lizzie Ludwig and Fred Ludwig, of Alexander.

#### BURKE-LIVERMORE.

William C. Burke and Miss Fola Livermore were married Wednesday evening at 7 o'clock at the home of James Wood on South Main street. Rev. T. H. Marsh performed the ceremony in the presence of only a few immediate friends. They will begin housekeeping at once and will reside in Park Place. The bride formerly lived in Shelbyville and only recently came to this city. She taught school at that place and enjoys the highest respect of all who know her. The groom is well known to many here and during the past two years has been the efficient bookkeeper at the wall paper store of A. J. Hoover on West Morgan street.

#### HORSE AND BUGGY MISSING.

Charles Martin, who resides two miles west of Woodson, came to Jacksonville Monday about noon and tied his horse and buggy near Purvis & McDougal's blacksmith shop on West College street. When he came for it about 3 o'clock in the afternoon it was gone and he has been unable to find any trace of it. The supposition was that his outfit had been stolen and notice had been sent to the police in every near by city to keep on the look out.

The horse was a bay of average size and the buggy had a red running gear and black bed and top, steel tires. A reward of \$10 for the horse and \$15 for the thief had been offered and late Wednesday afternoon the horse and vehicle were found six miles west of the city.

#### MITE CLUB.

WELL, perhaps not altogether, but they frequently go a long way towards it. Haven't you noticed how much better you have felt when well dressed, when you had on a good looking, well fitting suit; how much better able to face the world as a man; in other words, how much more manly you felt?

It is always so; you can approach a man on business with far more assurance, and you will make a stronger impression on him when you are correctly dressed. The Purest

And Most Popular.

This water is so pure it will not change color like other spring water, nor has it a foreign taste by standing long in a jar.

We also handle a full line of Coffees and Teas at reasonable prices.

We also sell sugar in a retail way at wholesale prices.
